

Radiation Therapy

The Cancer Center at Harrington works closely with 21st Century Oncology/ Radiation Therapy Services. Located on the first floor of the facility, Radiation Therapy Services offers advanced treatment through different types of Radiation Therapy.

Treatments available include:

↳ **Intensity Modulated Radiation Therapy (IMRT):** Carefully calculated beams of intense radiation are delivered at multiple angles by a revolutionary computer system.

↳ **Image Guided Radiation Therapy (IGRT):** A sophisticated treatment which uses a target image to guide the delivery of radiation for each and every treatment.

Please call 508-765-6830 for more information.

An Introduction

Welcome to The
Cancer Center at Harrington!

We are proud to offer state-of-the-art cancer treatment programs to Southern Worcester County. We are the first and only advanced cancer center in the region. It was our goal to build a complete and comprehensive cancer center tailored to the local community.

We know how important it is to receive quality, professional medical care when you or your family needs it most. The Cancer Center at Harrington fulfills these needs and keeps you close to home.

We take our motto, Total Local Care, seriously. The Cancer Center at Harrington doesn't just treat cancer, it repairs hope.

How We Care for You

When you arrive at the Cancer Center at Harrington, you will register and speak with a staff member and physician about your medical history and current diagnosis. We will make sure to review all information thoroughly about what to expect during your future visits.

You will be in the care of our nurses and staff when you arrive for treatments. All patients are taken into our infusion area and offered a comfortable chair or bed. Beverages and snacks are often provided.

Most of all, it is important to us that you feel comfortable. Our nurses and doctors are happy to answer any questions you have, so please do not hesitate to contact us if you have a concern.
